PROG 10082 - Assignment #1

Specification:

Due Date: Thursday September 18 @ 11:00 pm
Submit via SLATE Dropbox

Description:

This assignment is based on material learned in the two weeks of the course. Create a program called
MyProfile which will display your profile to the console. Your profile must consist of the following:
 ➢ Your full name
 ➢ Your age
 ➢ Your favourite movie
 ➢ Your favourite food
 ➢ A list of at least 3 hobbies/interests you have

Your program must have a variable that holds your age and use that variable where appropriate.

Below is an example of the console output format your program should follow:

```
Name: John Doe
Age: 19
Favourite Movie: Iron Man 3
Favourite Food: Pizza
Interests: Playing video games, sleeping, and hiking
```

Submission:

You will be submitting <u>one</u> Java file, **MyProfile.java**. Your program should have a multi-line comment at
the top of your source code similar to that below:

```
/*
   Name: [Your Name]
   Assignment 1
   Due Date: [Date Due]

   Description: [A brief description of what your program does]
*/

public class MyProfile {
        // Place your code here
}
```

Evaluation:

You will be evaluated on:
 • Program correctness (follows all assignment specifications)
 • Proper coding conventions in your program
